

Dear Clairton Members:

The Golden Triangle Skeet League (GTSL) has returned and will start October 6th. Over the past several months, we have been getting an increased number of new skeet shooters, so I wanted to share another way to meet new people and shoot at different gun club facilities.

The GTSL is a winter traveling skeet league that starts in October and ends usually in March. 5-gun clubs are currently involved: Clairton, Greater Pittsburgh, Library, Millvale and Tarentum.

Match-ups are routinely done every 2 weeks on Sundays except for November and December months to accommodate for holidays and hunting seasons. Match-ups are against one club that we face twice during the season, (once at home and once away) making a total of 10 shoots.

Each match-up is 50 targets (2 rounds of skeet) and the cost is \$15 per match-up. Each match-up win/loss is determined by two things.

- 1. Scratch- The top 5 shooters from each match-up.**
- 2. Handicap- The top 5 handicap shooters from each match-up.**
 - a. The best scores out of 250 from each category will determine the winner for that category. We can win both, win one or lose both.**

The biggest concern that shooters have is that they think they need to be good shooters to participate. This is NOT the case. Winning is only a bonus. The overall goal of GTSL is to get shooters involved, meet new people, and shoot at different clubs. You don't need to be a member of any club; however, it is encouraged that you are.

Included is the official 2024-2025 GTSL schedule and an email sheet for those who don't get my emails and want to be included. Enclosed is my email if anyone has any questions.

**Brian Steinert
GTSL President**
